Taobao

by Margarita Titilas

Taobao is an incredible shopping website similar to international sites, Amazon and Aliexpress. The really great aspect about Taobao is that it can be downloaded as an APP, this feature is only offered in Chinese however after also accessing the website on your computer it is extremely easy to buy goods.

There are so many things on offer and the best way to search for something is to screen shot a photo of it while searching and then look for it using the camera icon in the Taobao search bar. When you have done this, countless options appear of the item and when searching for this on your computer you are able to read comments and reviews with accompanied pictures that show what other buyers thought.

A countless variety of food, clothes, accessories and appliances can be found on Taobao. All home comforts can be imported through the site and at times can be the same price if not cheaper to what you can find in Australia, New Zealand and the United States. Another great feature about Taobao is that if you have changed your mind about an item you have purchased or if it is taking too long to get to you, you can ask for a refund from the seller. I have found this process to be easy and really efficient as the money is transferred back to you very quickly.

Taobao is connected to an Alipay account which holds your credit card details, when moving to China it is easier to open a Chinese bank account as you can also upload your credit card details to Alipay and use this account to pay on Taobao. Your money is secured and buying online is safe as everything is monitored and watched so transactions are always easy, quick and efficient! Enjoy using Taobao!
